9. QUESTION: (INCLUDE SCENARIO IF NEEDED FOR CLARITY):		

Contract Income, (such as teacher's income) is averaged for the period it is intended to cover (usually 12 months), for Change Reporting Households.

Can we apply the same budgeting concept for this type of income to Quarterly Reporting households? or is this treated as any other Reasonably Anticipated income for the Quarter?

10. REQUESTOR'S PROPOSED ANSWER:

Per MPP; 63-503.6 ,this concept seems to apply to both household types

"(QR) Contract income received by change reporting and QR households that derive their annual income in a period of time shorter than one year shall be averaged over the period it is intended to cover, provided the income from the contract is not earned on an hourly or piece-work basis".

11. STATE POLICY RESPONSE (CFPB USE ONLY):

Yes, per MPP 63-503.6, the contract income for QR households can be averaged over the period in which it is intended to cover.
